**Modulus 10 Self-check Digit Computation:**

1. Multiply the unit's position and every alternate position of the base number by 2 starting with right most position.
2. Add the digits in the products to the digits in the base number that were not multiplied.
3. Subtract the sum from the next higher number ending in zero. The difference is the self-check digit.

**Example:**

Base Number	4 9 9 8 6 5 5 9
Right most position and every other position	9 5 6 9 4
Multiply by 2.	18, 10, 12, 18, 8
Add the digits in the product.	(1+8), (1+0), (1+2), (1+8), 8
Digits not multiplied.	5 5 8 9
Add.	(1+8)+5+(1+0)+5+(1+2)+8+(1+8)+9+8
Sum	57
Next higher number ending in zero	60
Subtract.	60-57
Self-check digit	3

## Declaration of Estimated Tax for Corporations General Information

# 2011

LOUISIANA FILE ONLINE

**SPEC CODE** – This space on the first page of the tax return is to be used only when specifically instructed by the Department of Revenue. Otherwise, leave blank.

Any corporation that can reasonably expect its income tax for the taxable year to be \$1,000 or more must make estimated tax payments.

The term “estimated tax” means the amount the taxpayer estimates to be the Louisiana income tax imposed for the current period, less the amount it estimates to be the sum of any credits allowable against the tax.

Estimated payments must be made, generally, on or before the fifteenth day of the fourth month, the sixth month, the ninth month, and the twelfth month of the taxable year. For taxable periods beginning this year, refer to the table below to determine the date the installment payments are due. The table below summarizes the due dates and amounts of installment payments where liability for declarations is caused by an event occurring within a taxable period.

### Time and Amount of Installments

The due date and the amount of the installment payments shall be determined as follows:

If a corporation's estimated tax is \$1,000 or more, it meets the requirements for paying installments. If the requirement is first met:	Number of installments to make	The following percentages of the estimated tax shall be paid on or before the 15 <sup>th</sup> day of the:			
		4 <sup>th</sup> month	6 <sup>th</sup> month	9 <sup>th</sup> month	12 <sup>th</sup> month
Before the first day of the 4 <sup>th</sup> month of the taxable year.	4	25	25	25	25
After the last day of the 3 <sup>rd</sup> month and before the first day of the 6 <sup>th</sup> month of the taxable year.	3		33 <sup>1</sup> / <sub>3</sub>	33 <sup>1</sup> / <sub>3</sub>	33 <sup>1</sup> / <sub>3</sub>
After the last day of the 5 <sup>th</sup> month and before the first day of the 9 <sup>th</sup> month.	2			50	50
After the last day of the 8 <sup>th</sup> month and before the first day of the 12 <sup>th</sup> month.	1				100

Mail the appropriate voucher and payment to the Department of Revenue, P. O. Box 91011, Baton Rouge, Louisiana 70821-9011. A CIFT-620ES for Louisiana estimated corporation income tax should not be filed if payment is made by EFT, credit card, or an electronic payment via the Department's website. Make payment to: Department of Revenue. **Do not send cash.** Pay cash only at the Department of Revenue to an authorized recipient who will furnish you an official receipt.

If the taxpayer makes a new estimate after paying any installment of estimated corporation income tax, the amount of each remaining installment should be the amount of the revised estimated

corporation income tax, less the total amount of any previous payments made during the taxable year, divided by the number of remaining installments due for the taxable year.

If you had an overpayment of tax on your last year's return and elected to apply it as a credit to your estimated corporation income tax, the amount of overpayment may be applied in part or in full to any installment.

There shall be added to the tax due an amount computed at the rate of 12 percent per annum on the sum of any underpayment or nonpayment of estimated tax.
